

## **Delphi Appointed as Distributor for 3M Communication Products for Select Counties in California**

**Costa Mesa, CA – August 12, 2015** – Delphi Display Systems, Inc. – the global leader in consumer engagement and business optimization technology solutions for the food service industry, announced today that it has been appointed as an authorized distributor of 3M™ communication product lines. 3M’s latest generation headset will become part of Delphi's Insight® end-to-end, drive thru technology solution for the quick service restaurant (QSR) market. Details on coverage areas and service offerings are available on the company's website at [www.delphidisplay.com/markets/restaurants/headsets](http://www.delphidisplay.com/markets/restaurants/headsets).

“We are excited to become an authorized distributor of 3M’s state of the art communication products,” said Ken Neeld, President and CEO of Delphi. “The addition of the 3M product line to our Insight® suite of best-of-breed QSR drive thru solutions, allows us to offer a fully-integrated technology platform that is not available anywhere in the market today.”

The 3M fifth generation drive thru headset product, named G5, will be offered as a standalone solution or as an integrated component of Delphi’s Insight technology suite consisting of drive-thru order confirmation systems, drive-thru timing systems, and digital menu board solutions for both indoor and outdoor applications. As a distributor of 3M communication products, Delphi will provide turnkey services including installation, configuration, technical support, maintenance, and repair services. QSR operators will conveniently have only one number to call for sales, service and support.
